

Medication Policy

1. Due to liability reasons the staff will only be allowed to give prescribed medications to hotel guests that are in the original bottle. Due to safety reasons, the staff is unable to administer medications that are in any other container e.g plastic bags or other packaging.
2. Staff will only be allowed to administer medications for prescriptions that are current which can be proven by current medical records. If a client wishes for a medication to be administered, they can schedule a recheck with their current veterinarian to update their records or our veterinarian can examine the pet for an examination fee to update records and approve prescription(s)
3. Staff is unable to administer prescribed medications that are expired or out of date. Owner would need to request a refill from regular veterinarian or our veterinarian here can fill medications
4. Supplements or over the counter medications not prescribed by a veterinarian are allowed to be given while boarding with the understanding since they may not be prescribed medications that the owners don't hold us liable for any potential side effects based on the instructions that the owner has provided for us to give these medications. Examples of supplements: Glucosamine, CBD, Fatty Acid Supplements.
5. Pet's with a major chronic illness such as heart disease, seizures, recently diagnosed cancer, will require a medical exam from our DVM prior to boarding.

**Effective 9/1/21, Medications Administered by
staff will cost \$5 per day**
